Software Industry Veteran Joins Minerva Networks as Vice President of Services And Support

Experienced industry executive to build organization to address rapidly growing customer base and sharpen focus on large telcos and system integration partners

Santa Clara, CA – July 30, 2007 – Minerva Networks, the leading provider of open and scalable IPTV delivery platforms, today announced the appointment of Paul Tocatlian as Vice President of Services and Support. Mr. Tocatlian will be responsible for all aspects of the company's consulting, training and support services.

"We are very pleased to have Mr. Tocatlian join our executive team," stated Mauro Bonomi, CEO of Minerva Networks. "Paul is well-qualified to address the challenges and opportunities we are facing as we rapidly add large customers and global system integrators.

Mr. Tocatlian joins Minerva from Navio Systems, where he was Vice President of Digital Media and Mobile Commerce Solutions. He brings to Minerva over 20 years of experience in professional services management and software engineering with BEA Systems, Novell and AT&T Bell Labs. Mr. Tocatlian holds a Masters Degree in Computer Science from the University of Pennsylvania and a Bachelors Degree in Computer Science from the American University of Paris.

"As Minerva Networks continues to expand its customer base, it is critical that our professional services organization provides exceptional support to our customers on a global basis," stated Paul Tocatlian, Vice President of Professional Services. "I look forward to facilitating efficient IPTV deployments for our customers."

About Minerva Networks

Minerva Networks is the leading provider of open-platform, carrier-class infrastructure software for the delivery of compelling video services over broadband networks, including broadcast video, pay-per-view, video-on-demand, digital video recording and converged applications. More than 100 broadband network operators worldwide use Minerva's products and services to deliver next-generation entertainment and communications applications. Minerva Networks is headquartered in Santa Clara, CA and on the Internet at www.minervanetworks.com.
