Minerva 10: Course Modules - Days/ Times (USA

Pacific Time) (See below for YourTV Now course outline)

Minerva 10 Online Training:

Minerva Networks training courses are designed to provide your team with the knowledge they need to deploy and use the Minerva 10 system on a daily basis. Each course module is only 1 to 6 hours long and is delivered online by trained Minerva Networks experts.

Module	Day 1	Day 2	Day 3	Day 4
Times	Tuesday	Wednesday	Thursday	Friday
8:00AM to 9:00AM	1. M10 System Foundations & Overview	3. Customer	5. Administration/	5. Administration/
9:00AM to 10:00AM	2. Channels, Lineups, Regions & Packages	Accounts	Troubleshooting	Troubleshooting (Continued)
10:00AM to 11:00AM	Break	Break	Break	Break
11:00AM to 12:00PM	2. Channels, Lineups, Regions & Packages (Continued)	4. Configurable UI	5. Administration/ Troubleshooting (Continued)	6. PRM
12:00PM to 1:00PM	NOTE: All Time	s are in USA Pacific T		

Convenient online delivery: The training courses cover all of the key areas required to implement the Minerva 10 system.

Comprehensive set of modules: The training courses cover all of the key areas required to implement the Minerva 10 system.

Experienced training staff: Each of the Minerva's trainers has had at least 4 years hands-on field experience with Minerva Networks.

Course: Minerva M10 Platform Foundations Course Module 1

Module Duration - 1 Hour

Intended audience:

- Anyone who wants to get a foundational overview understanding of the M10 System
- Server System administrators, Headend, IPTV and IT Engineers
- Tier 1, 2 and 3
- Engineering operators
- Tech Support personnel
- Headend Technician
- CSRs, Marketing, Sales, Management, Provisioning, Help Desk, Marketing, etc.

What you will learn in this module:

- Minerva Networks M10 Platform and System overview.
- What operations does the Minerva M10 server system control?
- The essentials of the Minerva BackOffice server system.
- Features and Functionalities available at the Set Top Boxes and mobile devices.
- The essentials of the Minerva Edge server system.
- M10 system architecture, components and functions.

M10 & YourTV Now - Online Training

Course: Channels, Lineups, Regions & Packages

Course Module 2

Module Duration - 3 Hours

Intended audience:

- Headend Engineers
- Admin, Engineering, Support
- Marketing personnel
- Any person responsible for managing channels and lineups

What you will learn in this module:

- Channels students learn how to create channels as well as associate these channels with the TV Listing data service, the multicast IP addresses and port numbers, the HLS URL values or the DASH URL values.
- Pay Per View Channels are created.
- Channel Lineups students learn how to create channel lineups with independent channel numbering for different Service Areas. Also, you will learn how different channel lineups may be useful for particular communities, campuses, etc.
- Regions you will learn how to create regions, and associate themes, channel lineups, languages, time zones and other properties.
- Channel Packages students learn how to create channel packages, how to make channel packages which cross multiple regions or which are specific to a given region.
- Service Packages Students learn how Service Packages are combinations of channel packages and other features available to the customer.
- Final review Channels, Lineups, Regions and Packages.

Course: Customer Account Creation/ Management Course Module 3

Module Duration - 2 Hours

Intended audience:

- CSRs
- Provisioning, Help Desk
- Admin, Engineering, Support
- Anyone who manages customer provisioning

What you will learn in this module:

- Customer Accounts how to add new customer accounts & edit existing ones.
- Complete explanation of customer account fields, required & unrequired.
- Activating Devices using Account ID, phone number or the Customer ID.
- Explanation of the M10 Customer ID and Account ID and which matches a Service Provider's Billing System.
- How to set up and change Parental Controls on behalf of the customer, retrieve forgotten PINs and customer password changes, block channels, set credit limits, enable or disable services, require PIN usage, logins, limit the number of STB devices and mobile devices, etc.
- Assigning Services Service Packages, Channel Packages, User Services & Mobile.
- Activating, deactivating & deleting customer accounts.
- How to locate/track Device IDs within the M10 system and delete devices so they can be activated to another customer account.

Course: Configurable UI Course Module 4

Module Duration - 2 Hours

Intended audience:

- Administration
- Marketing, Sales, Management
- Anyone wanting an understanding of how to use the available tools to customize the user interface.

What you will learn in this module:

How to manage your content presentation and delivery including how to:

- Understand and use the basic features of the UI Configuration Module in MAUI
- Create a dynamic interface
- Define how your content can be displayed
- How to create special promotions and pages to support them
- How to create ads that link to special content
- How to upsell premium content
- Highlight "must watch" content
- Promote content collections, for example, the Oscar-nominated films

What you will learn in this module:

- M10 BackOffice and Edge system core architecture and components fully explained.
- The Edge Panel screens, alarms, events, and the Kibana dashboard.
- Advanced M10 BackOffice administration screens and configurations.
- Both methods of operation (HLS Unicast and multicast) operation will be explained.
- The Dispatcher functionality will be explained and demonstrated.
- Configuration of the multicast control (Runtime and Message) streams as it relates to system requirements as well as the boot streams within the M10 BackOffice.
- Using the tcpdump command to troubleshoot the M10 BackOffice & Edge servers.
- Using the tail command to watch logs & troubleshoot problems within the BackOffice & Edge systems. Finding root causes of failures.
- Checking, starting and stopping WebLogic, appropriate Linux commands and directories, troubleshooting.
- Linux login, cron jobs, log files, process management (DB Backup Loading EPG data)
- Adding new admin users.
- Triggering a Cold start from the Edge Panel and checking log files for successful operation.

Course: PRM Module 6

Module Duration - 2 Hours

Intended audience:

- Admin, Engineering, Support
- Network Operations personnel Individuals responsible for maintaining/ supporting the IPTV system.

What you will learn in this module:

- What the PRM, or Playback Resource Manager, is and does.
- How to control and administer playback of content based on the incorporation of rules and constraints using parameters such as:
- Network capability
- Content Type
- Device Type
- Device Location
- Bitrate
- Resolution
- Etc.

You will also learn how to configure controls for

- Concurrent streams
- Download & Go

YourTV Now: Course Modules - Days/ Times (USA Pacific Time)

YourTV Now Online Training:

Minerva Networks training courses are designed to provide your team with the knowledge they need to operate their YourTV Now system on a daily basis. Each course module is only 1 to 6 hours long and is delivered online by trained Minerva Networks experts.
